

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I urge you to support the "Fair Share Plan" as a remedy to problems related to the Universal Service Fund.

A totally unacceptable option, the flat fee or numbers-based plan now under consideration by the FCC, would over-charge people like me who make few long distance calls, while under-charging those, especially businesses, who make many calls. I'm sure that after a careful consideration you will conclude that the flat fee plan would impose an intolerable burden on us residential customers.

Please support the Fair Share Plan.

I shall follow carefully your actions in this matter.

cc: Marlene Dortch, Secretary

Sincerely,

Jess McKenzie
